

## Poems

1. *Oscar*  
1300 films produced per year  
in the six decades of years  
40 submissions made till this year  
Withall, not a single one in the filmmaker's carrier  
is it the film federation, ill-understanding of art or the lack of publicity money assuaging  
the lustre of the country in this Sphere.
2. *\$18*  
Mswati - ruler of a land  
-----fertile to HIV  
owner of \$17 million Jet  
-----having 13 palaces as his property  
admirer of art  
-----700,000 teenage girls danced half-naked in front of him  
husband of 15 women  
-----a disciple of hedonism  
urging for abstinence  
-----teenage girls shouldn't have sex with sugar daddies  
Although, \$18- an amount  
-----can be used to increase awareness about this deadly disease  
-----can buy condoms of good quality  
instead, he introduces \$18 a month chastity scholarship

3. *ISIS*  
camouflaged man  
decapitating innocent human  
threatening proliferation of such acts  
if bombed by west backed jets  
these sharia law macabre advocates  
averring establishment of a State - the Islamic State  
wait! a heaven, as they postulate  
exercising basic human rights  
where  
even for Sunnis isn't safe  
but a purgatory for Kurds, Christians and Shiites  
kafirs in their eyes  
facing genocides  
just for not being aligned to their religious ideological sides  
these internet savvy gunmen  
having aversion for cinematic entertainment  
an important question to ponder upon  
how these demagogues succeeds in their recruitment?  
Now the spotlights is the west-led coalition  
acting as a middle-east police consortium  
joining hands to fight  
but will that beat the enemies' hideous ideology or  
the followers of that ideology  
for whom death is hallow and already being glamorized

## 5. *Bonhomie*

being good not enough,  
if not well versed in the above  
may cost you friendship,  
causing loneliness and  
can be a serious concern  
But  
practicing that comes with a cost,  
a callow brain instead uses  
an anomalous alternative mixture  
of propitiation and limited interaction for that cause,  
antipathy arises  
when assailed  
with an invisible harangue  
as if for cadging or being an oaf;  
when only thing expected  
was the rules of the game  
to be equal and same for all  
Realized,  
was flying in a boorish plane  
when read a 50 Rupees book  
enunciating:  
searching soft corner instead in the self  
is the rule of the game.  
Reminding,  
the earlier nugatory pursuit caused a perdition  
that cannot be reclaimed.

## 6. *Pedagogue*

Pedagogue in life,  
"rationality  
never to be abated,  
abjuring  
one's own wise",  
admonished by that  
which is not tactile;  
enjoining a protege,  
to differentiate  
between wrong and right,  
future is an intangible  
be materialized  
with one's own effort and fight",  
JUST to have  
something called Peace of Mind.  
Words:  
Pedagogue | abate | abjure | admonish | tactile | enjoin | protege |

## 7. *The Alms*

(inspired from [Atlas Shrugged](#))

Petulance in a reprobate  
against one who refuses to adulate,  
not conceding alms giver or feeder  
as one of its good taste;

Rising Together is what they preach.  
but this together is a clique which dread to compete;  
indignant to those who defy the decree  
but a good adulation is the thing they whim to achieve;

Accusing, refuter, as being filled with smear,  
stolidness is the expression they always wear;  
The weapons they used against whom they fear:  
instilling guilt besides behaving innocent,  
acting as if their conscience is clear;  
talking straight and clear is not being practiced in their life,  
but generating and giving opinions, at back, is wise in their eyes

8. *Stolid*

a flagrant weapon,  
for any ruffian  
possessing a furtive intention  
abetting temptation  
expediting it to a precarious destination  
making its victim  
yelping for a normal refraction  
but allowing to transmit only a virtual reflection  
ebbing his determination  
wishing for his dilapidation,  
asking to spurn every emotion  
and dilapidate this temptation  
to a bleak condition!

9. *SUMMER*

Aghast of sunlight  
having wavelength high  
embezzling everything  
with its embittering light  
trifling away blight  
expediting plight  
with its sublime style  
full of virile  
that no one likes  
making greenhouse effect to replete  
when rabbles and slobs are conceding alike  
and forcing them  
to shy away from outside  
or to use a cream having  
SPF ending, atleast, with five
